Subject: Microsoft Settlement

To Whom it may concern:

I urge you to take specific action against Microsoft for the laws it has broken and most importantly for the laws it will break if it is not handed a stiff penalty.

The proposed settlement is a slap in the face to consumers, the law and Microsoft's competitors by allowing Microsoft to gain further market share in the education market, the one area it does NOT have a monopoly. They should be forced to give their money to a fund that buys Apple or other non-Windows products.

This company has proven it will do whatever it takes to gain market share and sell more products, even if it means taking steps that are anti-competitive and hurtful to the consumer.

Please stop Microsoft's unfair practices ASAP.
